

Mortality

All cause, cancer, and heart disease mortality in counties residing in the Five Northwest (Quin) County community health board (CHB) region

All Cause Mortality by State/County/CHB, MN Residents, 2020*

Source: Minnesota County Health Tables, 2020, Minnesota Department of Health

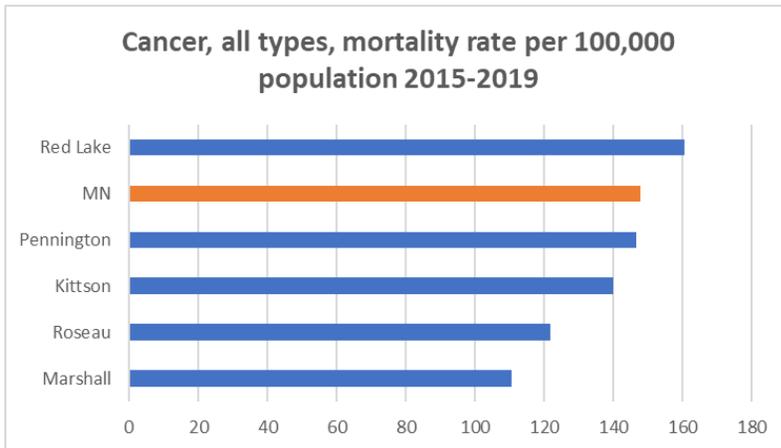

*Rates not calculated for fewer than 20 deaths (< 1; 1-4; 5-9; 10-14; 15-19; 20-34; 35-49)

SUMMARY

- Kittson county had the highest all cause mortality rates in the 80+ age categories.
- Red Lake county is not shown on the graph due to fewer than 20 deaths reported.

Cancer Mortality

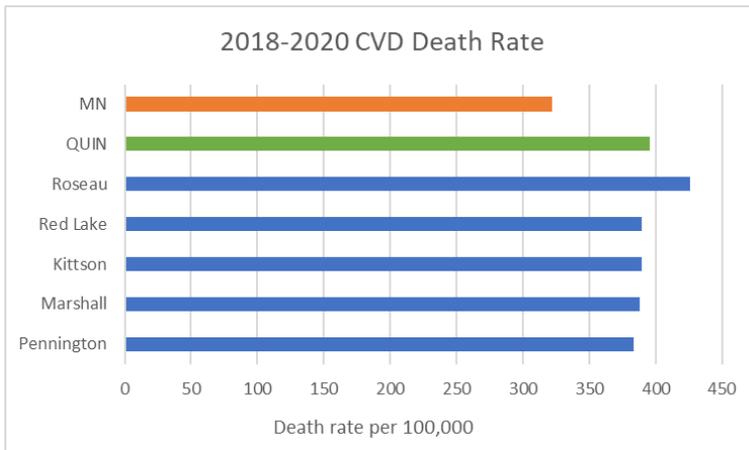

SUMMARY

- Red Lake county has a higher mortality rate, of all cancers combined, than all other Quin CHB counties, as well as statewide mortality rate.
